

Contracted Insurance List

The following list identifies the insurance companies that our group holds active written contractual agreements with. Many of these companies are Networks. This means that the payer could be listed differently than the network. The patient's insurance card will indicate the network. In the event insurance is billed that we do not have a current arrangement with, we will adjust the charges to self pay rates. Please do not hesitate to direct any patient calls and concerns directly to: Info@pbsaz.com
